## **SATSair CEO Hanvey recognized for two aviation awards**

**Greenville, S.C. (January 8, 2008)** – SATSair, a provider of on-demand air cab services, is pleased to announce the selection of President & CEO Stephan A. Hanvey as the 2007 Business & Commercial Aviation Vision Award Winner and as a nominee for a prestigious Aviation Week Laureate Award.

The Vision Award, given by Business & Commercial Aviation, recognizes Hanvey and SATSair as forward-thinking in the aviation industry. The award also recognizes Hanvey and SATSair for their steps in using the Small Aircraft Transportation System (SATS) to make on-demand air travel accessible to the general public. Hanvey receives the Vision Award alongside fellow air taxi company, DayJet, President & CEO Ed Iacobucci.

Hanvey's Aviation Week Laureate Award nomination is for the "Business/General Aviation" category. Laureate Awards recognize the extraordinary achievements of pioneers and thought leaders in the international aerospace, aviation and defense industries. Also nominated in the Business/General Aviation category are Min Kao (Chairman and CEO) and Gary Burrell (Chairman Emeritus) of Garmin International and Jack Pelton (Chairman, CEO and President) of Cessna Aircraft Company. The winner of this prestigious award will be announced Tuesday, March 4, 2008, at a formal dinner and awards gala in Washington, D.C.

"This award and award nomination mean so much to SATSair and to me personally. They speak volumes about where we've been and our potential for the future," said Hanvey. "I am truly honored and humbled to be placed alongside such internationally successful companies as Garmin and Cessna for the Laureate Award."

**SATSair**, Smart Air Travel Solutions, is the first company to offer the innovative air cab service based on extensive research and strategic relationships with agencies such as NASA and the FAA. Using new Cirrus SR22 aircraft, SATSair's mission is to provide safe, convenient, economical air travel and top-notch customer service. SATSair's service area includes much of the eastern United States, and the company plans continued expansion. For more information on SATSair, visit [www.satsair.com](http://www.satsair.com).
